

Appreciated assets.

It's amazing what engaged employees
can do for your bottom line.

At Dittman Incentive Marketing, we've been helping clients create unique engagement solutions for over 30 years – solutions that inspire above-and-beyond performance and translate it into measurable business results – with the ROI metrics to prove it.

Now, our performance improvement solution, TotalPRO® (Performance Recognition Online) is revolutionizing the way companies drive enterprise-wide engagement, one individual at a time.

TotalPRO® is an engagement platform that empowers you to inspire the behaviors that drive results by using the modules you choose:

- **Recognition** – Build a culture of excellence through appreciation. Nominate, congratulate, and celebrate those individuals who live your corporate core values.
- **Service Awards** – Recognize and reward enduring loyalty to increase employee retention.

- **Sales** – Increase market share by motivating your sales force to meet – and exceed – your business goals.
- **Wellness and Safety** – Increase productivity and reduce costs related to injury, illness and absenteeism. These two modules make it possible.
- **Suggestions** – Encourage innovative thinking and idea-sharing to promote ongoing improvements.
- **Training** – Communicate product, service, and conceptual knowledge via our "Learn & Earn" initiatives.
- **Reward Fulfilment** – Raise everyone's sights to higher levels with the TotalPRO® rewards module, where your people can redeem the points they've worked so hard to earn.

Find out what TotalPRO® can do for your bottom line.
